Re: DENIAL OF ANIMAL SHELTER REGISTRATION RENEWAL
Colonial Capital Humane Society Animal Shelter
Registration No. 109

Dear Ms. Lee:

This letter is in response to the application for registration renewal as an animal shelter with the Animal Welfare Section ("AWS") of the North Carolina Department of Agriculture and Consumer Services ("NCDA&CS") for Colonial Capital Humane Society Animal Shelter ("the shelter"). As you are aware, pursuant to N. C. General Statute §19A-26, no person shall operate an animal shelter without a certification of registration.

AWS conducted facility inspections of the shelter on December 4, 2015 and December 29, 2015 that were noted to be "Disapproved" due to the number and severity of areas that were not in compliance with the N. C. Animal Welfare Act and its associated rules ("AWA"). On February 24, 2016, the shelter was issued a Notice of Warning and Notice of Deficiency which along with the December 2015 Facility Inspection Reports detailing the deficiencies and areas of non-compliance. In accordance with N. C. General Statute §19A-30, the Notice of Deficiency served as written notice informing you in what aspects the shelter has failed to satisfy the requirements for the holding of a certificate of registration. Furthermore, the Notice of Warning and Notice of Deficiency informed you that failure to correct these items may result in disciplinary action against the shelter's certificate of registration and/or the assessment of a civil penalty of up to \$5,000.00 per violation under N. C. General Statute §19A-40.

Subsequent facility inspections conducted on April 11, 2016 and July 11, 2016 noted numerous continuing deficiencies and significant areas of non-compliance. The April 11, 2016 and July 11, 2016 inspections were marked "Disapproved" due to the number and severity of the deficiencies as reflected in the inspection reports. AWS acknowledges that a few corrective actions have been completed, but the facility remains substantially non-compliant with the AWA.

For the reasons set forth in the Notice of Deficiencies and the April 11, 2016 and July 11, 2016 Facility Inspection Reports, and pursuant to N. C. General Statute §19A-30 (2), (3), and (8), the application for the registration renewal of Colonial Capital Humane Society Animal Shelter is hereby DENIED.

You are therefore directed to cease operation as an animal shelter. At no time after the receipt of this letter is the shelter to intake any additional animals. You have 60 days from the receipt of this letter to find suitable accommodations for the animals in the shelter's care and custody, including those animals in foster care through the shelter.

If you continue to operate this unregistered animal shelter following receipt of this letter, AWS has the authority to seek legal relief and to impose a civil penalty of up to five thousand dollars (\$5,000.00) per violation pursuant to:

N.C. General Statute § 19A-40. Civil Penalties.

The Director may assess a civil penalty of not more than five thousand dollars (\$5,000) against any person who violates a provision of this Article or any rule promulgated thereunder. In determining the amount of the penalty, the Director shall consider the degree and extent of harm caused by the violation. The clear proceeds of civil penalties assessed pursuant to this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C 457.2.

The Board of Directors for Colonial Capital Humane Society has been copied on this letter. Should any Board member(s) wish to arrange a meeting to discuss this matter and how to proceed going forward, they may contact Dr. Norris at (919) 707-3280.

APPEAL

You may contest this decision by filing a petition under the North Carolina Administrative Procedure Act, N.C. Gen. Stat. § 150B-23, within five (5) days of your receipt of this denial. If you file a contested case petition, it must be in writing and in the form prescribed by N.C. General Statute § 150B-23. The petition must be accompanied by a filing fee of twenty dollars (\$20.00) payable to the N.C. Office of Administrative Hearings ("OAH"). Payment can be made by cash, money order, certified check or check drawn on an attorney's trust account. Make checks payable to: Office of Administrative Hearings. File the petition and one copy with:

Office of Administrative Hearings
6714 Mail Service Center
Raleigh, NC 27699-6714

Any questions about filing a petition may be directed to the Clerk of OAH by telephone 919-431-3000.

If you file a contested case petition, you must serve NCDA&CS by mailing a copy of the petition to:

Notice of Warning and Notice of Deficiency

Re: Violation of Title 02, N. C. Administrative Code ("NCAC") Chapter 52J, Sections .0101(1-5); .0103; .0201 (a), (d), (e) and (i); .0202 (b); .0203 (a), (b), and (e); .0204 (a-c) and (e-g); .0207 (a-d); .0208; .0209 (3), (5) and (6); and .0210 (b) and (c).

AWS-WL-2016-4

Shelter: Colonial Capital Humane Society Animal Shelter
Certification No. 109

Dear Ms. Lee:

The Animal Welfare Section ("AWS") of the Veterinary Division of the N. C. Department of Agriculture and Consumer Services ("NCDA&CS") conducted facility inspections of the Colonial Capital Humane Society Animal Shelter ("the shelter") on December 4, 2015 and December 29, 2015 as well as a records inspection on January 8, 2016. The facility inspections were marked "Disapproved" due to the number and severity of the deficiencies as reflected in the inspection reports attached hereto.

At the time of the records inspection, the shelter was directed to seek immediate veterinary care for the dog named Shrek and to provide AWS the following documents within thirty (30) days:

- 1) a complete cleaning and sanitation protocol for the facility that had been approved by a veterinarian;
- 2) completed disposition forms for all animals that had been or continue to be in the care and custody of the shelter from May 2015 until the date of the document submission;
- 3) a list of all animals currently in the care and custody of the shelter with completed disposition forms, a list of all animals currently in the care and custody of the shelter that arrived prior to May 2015 that do not have completed disposition forms and the date of arrival of each for these animals;

- 4) a written veterinary care program to address the contagious disease(s) present in the cat population, including but not limited to proper isolation techniques, sanitation protocols, veterinary care, medication administration and documentation;
- 5) medication/treatment/preventative administration medical logs that contain all information required by the NC Animal Welfare Act ("AWA") and its associated rules; and
- 6) documentation of the provision of daily socialization of young animals and those animals in long term care.

Despite the directive given to the shelter on January 8, 2016, veterinary care for Shrek was not provided immediately, and was delayed until February 22, 2016. In addition, only a partial response to the request for documentation was provided to AWS on February 22, 2016, instead of a full response on or before February 8, 2016 as directed.

These two facility inspections and additional records inspection, along with the shelter's delayed partial response, show that there are numerous continuing deficiencies and areas of non-compliance with the NC AWA and its associated rules. Despite being given the opportunity to correct these deficiencies and supply AWS with all requested records, the shelter has failed to do so.

Based on the results of the inspections, you are in violation of the following regulations:

- 1) 02 NCAC 52J .0101(1-5);
- 2) 02 NCAC 52J .0103;
- 3) 02 NCAC 52J .0201 (a), (d), (e) and (i);
- 4) 02 NCAC 52J .0202 (b);
- 5) 02 NCAC 52J .0203 (a), (b), and (e);
- 6) 02 NCAC 52J .0204 (a-c) and (e-g);
- 7) 02 NCAC 52J .0207 (a-d);
- 8) 02 NCAC 52 J .0208;
- 9) 02 NCAC 52J .0209 (3), (5) and (6); and
- 10) 02 NCAC 52J .0210 (b) and (c).

Pursuant to N. C. General Statute §19A-30, this Warning Letter, in conjunction with the two enclosed Inspection Reports, serves as written notice indicting the respects in which the shelter has failed to satisfy the requirements for the holding of a certificate of registration as an animal shelter.

The shelter is directed to provide all of the documentation listed above. Failure to provide this documentation by March 15, 2016 shall be considered to be a willful disregard or violation of the NC Animal Welfare Act and the rules issued pursuant thereto.

In addition, the shelter is to correct all deficiencies described in the two enclosed facility inspections within 30 days of the date of receipt of this letter. Continued or future violation of these statutes or regulations will be considered to be a willful disregard or violation of the same. Such willful disregard or violation of the NC Animal Welfare Act and the rules issued pursuant thereto may result in disciplinary action against your facility's certificate of registration pursuant to N. C. General Statute §19A-30 and/or the assessment of a civil penalty of up to \$5,000.00 per violation under N. C. General Statute §19A-40.

Your immediate attention to this matter is appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read 'Patricia Norris', is positioned above the typed name.

Patricia Norris, DVM, MS
Director of Animal Welfare Section
Veterinary Division

cc: Dr. R. Douglas Meckes, State Veterinarian

Tina Hlabse, General Counsel, NCDA&CS
Christopher R. McLennan, Assistant Attorney General

Appendix

RELEVANT LAWS AND REGULATIONS

§ 19A-30. Refusal, suspension or revocation of certificate or license.

The Director may refuse to issue or renew or may suspend or revoke a certificate of registration for any animal shelter or a license for any public auction, kennel, pet shop, or dealer, if after an impartial investigation as provided in this Article he determines that any one or more of the following grounds apply:

- (1) Material misstatement in the application for the original certificate of registration or license or in the application for any renewal under this Article;
- (2) Willful disregard or violation of this Article or any rules issued pursuant thereto;
- (3) Failure to provide adequate housing facilities and/or primary enclosures for the purposes of this Article, or if the feeding, watering, sanitizing and housing practices at the animal shelter, public auction, pet shop, or kennel are not consistent with the intent of this Article or the rules adopted under this Article;
- (4) Allowing one's license under this Article to be used by an unlicensed person;
- (5) Conviction of any crime an essential element of which is misstatement, fraud, or dishonesty, or conviction of any felony;
- (6) Making substantial misrepresentations or false promises of a character likely to influence, persuade, or induce in connection with the business of a public auction, commercial kennel, pet shop, or dealer;
- (7) Pursuing a continued course of misrepresentation of or making false promises through advertising, salesmen, agents, or otherwise in connection with the business to be licensed;
- (8) Failure to possess the necessary qualifications or to meet the requirements of this Article for the issuance or holding of a certificate of registration or license.

The Director shall, before refusing to issue or renew and before suspension or revocation of a certificate of registration or a license, give to the applicant or holder thereof a written notice containing a statement indicating in what respects the applicant or holder has failed to satisfy the requirements for the holding of a certificate of registration or a license. If a certificate of registration or a license is suspended or revoked under the provisions hereof, the holder shall have five days from such suspension or revocation to surrender all certificates of registration or licenses issued thereunder to the Director or his authorized representative.

A person to whom a certificate of registration or a license is denied, suspended, or revoked by the Director may contest the action by filing a petition under G.S. 150B-23 within five days after the denial, suspension, or revocation.

Any licensee whose license is revoked under the provisions of this Article shall not be eligible to apply for a new license hereunder until one year has elapsed from the date of the order revoking said license or if an appeal is taken from said order of revocation, one year from the date of the order or final judgment sustaining said revocation. Any person who has been an officer, agent, or employee of a licensee whose license has been revoked or suspended and who is responsible for or participated in the violation upon which the order of suspension or revocation was based, shall not be licensed within the period during which the order of suspension or revocation is in effect. (1977, 2nd Sess., c. 1217, s. 11; 1987, c. 827, s. 67.)

§ 19A-40. Civil Penalties.

The Director may assess a civil penalty of not more than five thousand dollars (\$5,000) against any person who violates a provision of this Article or any rule promulgated thereunder. In determining the amount of the penalty, the Director shall consider the degree and extent of harm caused by the violation. The clear proceeds of civil penalties assessed pursuant to this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2. (1995, c. 516, s. 6; 1998-215, s. 3.)

02 NCAC 52J .0101 RECORDS; ANIMAL SHELTERS, ETC.

Operators of all animal shelters, pet shops, public auctions, and dealers shall maintain records on all dogs and cats showing the following:

- (1) origin of animals (including names and addresses of consignors) and date animals were received;
- (2) description of animals including species, age, sex, breed, and color markings;
- (3) location of animal if not kept at the licensed or registered facility;
- (4) disposition of animals including name and address of person to whom animal is sold, traded or adopted and the date of such transaction; in the event of death, the record shall show the date, signs of illness, or cause of death if identified; if euthanized, the record shall show date and type of euthanasia; and
- (5) record of veterinary care including treatments, immunization and date, time, description of medication (including name and dosage), and initials of person administering any product or procedure.

History Note: Authority G.S. 19A-24;
Eff. April 1, 1984;
Amended Eff. January 1, 2005; April 1, 1985.

02 NCAC 52J .0103 INSPECTION OF RECORDS

All operators of animal shelters, pet shops, boarding kennels, public auctions, and persons operating as dealers shall make all required records available to the director or his authorized representative on request, during the business and cleaning hours listed on the license application. The operator must be able to match each animal to its record upon request. Records shall be maintained for a period of one year after the animal is released.

History Note: Authority G.S. 19A-24; 19A-25;
Eff. April 1, 1984;
Amended Eff. January 1, 2005; April 1, 1985.

SECTION .0200 - FACILITIES AND OPERATING STANDARDS

02 NCAC 52J .0201 GENERAL

- (a) Housing facilities for dogs and cats shall be structurally sound and maintained in good repair to protect the animals from injury, contain the animals and restrict the entrance of other animals and people.
- (d) Supplies of food and bedding shall be stored in facilities which adequately protect such supplies against infestation or contamination by vermin and insects. All open bags of food shall be stored in airtight containers with lids. Refrigeration shall be provided for supplies of perishable food.
- (e) Provisions shall be made for the daily removal and disposal of animal and food waste, bedding and debris from the housing facility in accordance with local ordinances, to assure facility will be maintained in a clean and sanitary manner.
- (i) An adequate drainage system must be provided for the housing facility.
- (j) All areas of a facility are subject to review or inspection by North Carolina Department of Agriculture and Consumer Services employees during normal business hours (8:00 a.m. through 5:30 p.m. Monday through Friday).
- (k) All animals in a facility are subject to the requirements of the Animal Welfare Act, regardless of ownership.
- (l) A licensee or registrant shall comply with all federal, state and local laws, rules and ordinances relating to or affecting the welfare of dogs and cats in its facility.
- (m) No dog or cat shall be in a window display except during business hours and then only in compliance with standards set forth in this Section.

History Note: Authority G.S. 19A-24;
Eff. April 1, 1984;
Amended Eff. January 1, 2005.

02 NCAC 52J .0202 INDOOR FACILITIES

- (b) Indoor housing facilities for dogs and cats shall be adequately ventilated to provide for the health and comfort of the animals at all times. The facilities shall be provided with fresh air either by means of windows, doors, vents or air conditioning and shall be ventilated so as to minimize drafts. Air flow shall be adequate to minimize odors and moisture condensation.

History Note: Authority G.S. 19A-24;
Eff. April 1, 1984;
Amended Eff. January 1, 2005.

02 NCAC 52J .0203 OUTDOOR FACILITIES

- (a) In outdoor facilities that are subject to the Animal Welfare Act, primary enclosures and walkways with which an animal comes in contact shall be constructed of sealed concrete or other surfaces impervious to moisture. Gravel may be used if maintained at a minimum depth of six inches and kept in a sanitary manner.
- (b) Dogs and cats kept outdoors shall be provided housing to allow them to remain dry and comfortable during inclement weather. Housing shall be constructed of material which is impervious to moisture and which can be disinfected. One house shall be available for each animal within each enclosure except for a mother and its unweaned offspring.
- (e) A suitable method of drainage shall be provided.

History Note: Authority G.S. 19A-24;
Eff. April 1, 1984;
Amended Eff. March 23, 2009; January 1, 2005.

02 NCAC 52J .0204 PRIMARY ENCLOSURES

- (a) Primary enclosures shall be constructed so as to prevent contamination from waste and wastewater from animals in other enclosures. All surfaces with which an animal comes in contact shall be impervious to moisture. For primary enclosures placed into service on or after January 1, 2005, no wood shall be within the animal's reach. For primary enclosures in use in a licensed or registered facility prior to January 1, 2005, any damaged wood must be replaced in a manner that does not permit contact with wood by the animal.
- (b) Primary enclosures for dogs and cats shall be structurally sound and maintained in good repair and in a manner to prevent injury to animals and keep other animals out. Primary enclosures shall be constructed so as to provide space to allow each dog or cat to walk, turn about freely, and to easily stand, sit, or lie in a natural position. The height of a primary enclosure other than a cage shall be no less than five feet. All enclosures shall be constructed to prevent the escape of animals.
- (c) Each primary enclosure shall be provided with a solid resting surface or surfaces adequate to comfortably hold all occupants of the primary enclosure at the same time. All resting surfaces must be of a non-porous or easily sanitized material, such as a towel, or a disposable material such as newspaper. The resting surface or surfaces shall be elevated in primary enclosures housing two or more cats.
- (e) If more than four dogs are housed in a common area or enclosure, then there must be at least one person supervising each 10 dogs housed within each enclosure or common area.
- (f) In addition to Paragraph (b) of this Rule, each feline older than six months housed in any primary enclosure shall be provided a minimum of four square feet of floor space which may include elevated resting surfaces. Each feline younger than six months shall be provided 1.5 square feet. Not more than 12 cats shall be housed in the same primary enclosure.
- (g) In all cat enclosures, a receptacle containing clean litter shall be provided for waste. A minimum of one receptacle per three cats is required.

*History Note: Authority G.S. 19A-24;
Eff. April 1, 1984;
Amended Eff. January 1, 2005; April 1, 1985.*

02 NCAC 52J .0207 SANITATION

- (a) Waste shall be removed from primary enclosures and exercise areas to prevent contamination of the dogs or cats contained therein and to reduce disease hazards and odors. Enclosures and exercise areas for dogs and cats must be properly cleaned a minimum of two times per day. The animal must be able to walk or lie down without coming in contact with any waste or debris. When a hosing or flushing method is used for cleaning an enclosure, dogs or cats contained therein shall be removed during the cleaning process, and adequate measures shall be taken to protect the animals in other such enclosures from being contaminated with water and other wastes.
- (b) Sanitation shall be as follows:
- (1) Prior to the introduction of dogs or cats into empty primary enclosures previously occupied, enclosures and accessories shall be sanitized in the manner provided in Subparagraph (b)(3) of this Rule.
 - (2) In addition to primary enclosures being properly cleaned a minimum of two times per day, enclosures and accessories shall be sanitized a minimum of once every seven days in the manner provided in Subparagraph (b)(3) of this Rule if the same animal is housed in the same enclosure more than seven days.
 - (3) Cages, rooms and hard-surfaced pens or runs shall be sanitized by:
 - (A) washing them with hot water (180 degrees F.) and soap or detergent as in a mechanical cage washer; or
 - (B) washing all soiled surfaces with a detergent solution to remove all organic matter followed by application of a safe and effective disinfectant; or
 - (C) cleaning all soiled surfaces with live steam.
 - (4) Food and water receptacles shall be sanitized daily with hot water, detergent, and disinfectant.
 - (5) Soiled linens and cloth products shall be mechanically washed with detergent and sanitized.
 - (6) Any area accessible to multiple animals shall be kept clean and sanitary.
- (c) Premises (buildings and grounds) shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this Rule. Premises shall remain free of accumulations of trash, junk, waste products, and discarded matter. Weeds, grasses, and bushes must be controlled so as to facilitate cleaning of the premises and to improve pest control, and to protect the health and well-being of the animals.
- (d) An effective program for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained.

*History Note: Authority G.S. 19A-24;
Eff. April 1, 1984;
Amended Eff. January 1, 2005; April 1, 1985.*

02 NCAC 52J .0208 EMPLOYEES

A sufficient number of employees shall be utilized to maintain the prescribed level of husbandry practices set forth in this Rule. Such practices shall be under the supervision of an animal caretaker who has a background in animal husbandry or care.

History Note: Authority G.S. 19A-24;
Eff. April 1, 1984.

02 NCAC 52J .0209 CLASSIFICATION AND SEPARATION

Animals housed in the same primary enclosure shall be maintained in compatible groups, with the following additional restrictions:

- (3) Puppies or kittens less than four months of age shall not be housed in the same primary enclosure with adult dogs or cats other than their dams, except when permanently maintained in breeding colonies, or if requested in writing, by the animals' owner, as in a boarding kennel. Puppies or kittens between 4 and 16 weeks of age shall have daily access to human social interaction, excluding animals which pose a danger to humans or other animals.
- (5) All facilities shall designate an isolation area for animals being treated or observed for communicable diseases. Dogs or cats in isolation that are being treated for a communicable disease shall be separated from other dogs or cats and other susceptible species of animals in such a manner as to minimize dissemination of such disease. A sign shall be posted at the cage or isolation area when in use, giving notice of a communicable disease.
- (6) Animals in long term care which are intended for adoption or sale must be provided the following:
 - (a) Daily access to both human and same species social interaction.
 - (b) Daily access to space other than the primary enclosure.
 - (c) A species and size-appropriate toy, unless it poses a health threat.

History Note: Authority G.S. 19A-24;
Eff. April 1, 1984;
Amended Eff. January 1, 2005.

02 NCAC 52J .0210 VETERINARY CARE

(b) If there is a disease problem that persists for more than 30 days at the facility, the facility operator shall obtain and follow a veterinarian's written recommendations for correcting the problem.

History Note: Authority G.S. 19A-24;
Eff. April 1, 1984;
Amended Eff. March 23, 2009; January 1, 2005.

Narrative Explanation

Annual/follow up inspection done today. Volunteer Tammy Golden in attendance.

Items of concern are as follows:

DOG KENNELS.

Upon entrance to the outside kennel areas I find that the canine population has increased by 25. Kennels have been erected to accommodate this increase. The already existing play/exercise area has been divided into 2 kennels and 5 more have been put up around it. There are approximately 8 more of these enclosures adjacent to the kennels that line the back of the property. All of the recently constructed kennels have rusted and damaged poles and fencing. Wire fencing that was laid on the dirt floor surfaces to prevent digging, is exposed. Thus making it so the dogs have to walk and rest on top it and it poses as a potential for injury. Wood and particle board has been utilized in these enclosures as well. It has been chewed on, defecated and urinated on. Due to the fact that it is not impervious to moisture, some of it is soggy. I find no evidence of adequate drainage. There is no kennel or canine identification on the enclosures.

The preexisting kennels have had no further work done to them to bring them into compliance. Several remain with no cross contamination barriers, damaged and rusted fencing, inadequate drainage, damaged flooring, accumulation of hair and debris and the inability to properly disinfect and maintain cleanliness. A few wooden doghouses and rusted water buckets remain.

CAT HOUSE.

I was denied access to the cat house. During the approximate 2 hours that I was on the property, I saw no evidence of anyone coming or going from the cat house and the volunteer had no key to get in. The outside and surrounding grounds remain out of compliance with the AWA. Litter boxes that appear unclean, pet carriers and a bucket of used litter scoops are piled up at the front entrance of the cat house and extend down the wooden ramp to the side of the building. The wooden ramp remains unsealed.

Colonial Capitol Humane Society

New Bern

NC

Narrative Explanation

The wash station area remains unchanged. All clean animal dishes are exposed to the elements and wood surfaces remain here as well.

STORAGE BUILDINGS.

There are 3 storage buildings in the back yard kennel area. The 2 that were unlocked where unorganized and held debris and clutter. The locked unit I was denied access to had a heavy duty extension cord coming from the door with an unknown origin.

RECORDS.

I have been denied access to any and all animal records. I was told that they would be keeping records in the camper on the premises as this was to be the new office/medical space. There is no evidence of an office in here. Instead I find the housing of 13 rabbits.

Due to the denial of my access to the cat house, storage shed, any and all animal records, the increase in verified canine population that exceeds the number of dogs that their registration permits, and the unacceptable housing of this increase, I am disapproving this inspection.

I am also requiring immediate compliance with the AWA (Animal Welfare Act) for the following:

1. Adequate housing for all canines.
2. To be at or below the number of canines as listed on their registration.

Narrative Explanation

This follow up inspection for prior disapproved inspection was performed by myself, Dr. Norris and Supervisor Joe Blomquist. The following are the issues and concerns revisited from the December 4th disapproval and new issues as well.

DOG KENNELS.

The canine population has, once again, increased. There are now a total of 60 dogs in this area. The added enclosures remain with the exception of 2 that have been removed. None of these are in compliance and several pose as potential for injury due to the materials used to construct them. Exposed wire fencing on the bare dirt floors that due to heavy rain has turned said dirt to mud. Wooden palettes, particle board and plywood that has been chewed on, rained on, urinated and defecated on, as well as 2 wooden dog houses remain. Rusted poles and fencing are still up. One of these type kennels is set up under the front end of the trailer that is housing the rabbits. The canine in here is exposed to hanging wire fencing that has been used to cover the top. Drainage is non existent in or outside of these kennels. (0204) The pre existing kennels remain unchanged. The first pen has 2 large dogs and only 1 dog house. (0203) There are 5 canines in one pen without supervision. (0204)(e) Each kennel floor has broken concrete and holes, most are without cross contamination barriers, there is rusted wire and fencing posts and several places throughout these kennels there is damaged fencing. (0204) Adequate drainage is non existent for these kennels as well. (0203) The kennels are cleaned once a day by one person. (0207)(b) We observed that during this process that no dog was let out or removed from its kennel. (0207)(a) There is one volunteer to clean all of these pens. (0208) Adequate, required cleaning is not being achieved due to the state of these kennels and person to canine ratio. (0204) Piles of molding feces in different stages of decay were found in many of the enclosures. (0207)(a) There was a dog being housed in the shed that I was not granted access to last time I was here. There were 2 other wire crates in this shed that appeared to have had dogs in them as well. There are no solid approved resting surfaces in any of the primary enclosures. (0204)

Colonial Capitol Humane Society

New Bern

NC

Narrative Explanation

When Supervisor Blomquist asked the volunteer how she cleans a dirt/mud kennel floor her response to him was she used Lyme. This is not acceptable as it is a toxic irritant. They also are aware that dirt, mud and wood are not acceptable ground coverings. (0203)

CAT HOUSE.

We were able to access the cat house today. There were 3 volunteers in here in the process of cleaning.

Issues are as follows:

Numbers have increased and the population in here exceeds the allowed number in which they have adequate space for. There is no identification for these cats. (0103) Ventilation is poor. (0202) There is no adequate isolation. (0209)(5) Wooden and carpet type cat towers that are damaged are not allowed yet are in here. (0204) There are not enough litter boxes to accommodate these high feline numbers. (0204)(g) Several of these boxes have been scooped yet not cleaned thoroughly and dried lose feces is evident on the inside side of the boxes. (0207)(a) The small refrigerator in here is holding car keys and open sodas inside along with animal medications. There are unlabeled and mislabeled medications and cleaning products. The plastic closet that holds medications and various other things is in need of a good cleaning and organizing. (0207) There is not a approved medical log or kennel cards for cats receiving medications. (0101) Metal surfaces throughout this building are severely rusted and all door frames, door jams, window casings and cat doors are damaged. (0204)(0207)

There is a upper respiratory disease that has been ongoing for more than 30 days. The owner, as stated in the AWA (Animal Welfare Act), shall obtain and follow a veterinarians written recommendations for correcting the problem. (0210)(b) This has not been done.

RECORDS.

Once again we were denied access to any and all animal records. We were told that Lisa Lee is the only one who has access to them and she could not be there today. We will have to make a separate trip to view these.

(0101)(0103)

OUTSIDE GROUNDS.

The front of the building grounds and wash station area in behind the fence remain unchanged from previous inspection. Open bags of food and rodent dropping are noted in the front drop off donation shed. Bags of dirty laundry have filled up the open 3 sided structure that is next to the shed. (0207)(c)

Narrative Explanation, continued

This is the records review part of the inspection that took place on 12/29/2015. The records were not made available for us at that time. Today, 1/8/2016, myself and Dr. Norris met with Lisa Lee for this review. Dr. Norris addressed some of the findings from the 12/29/2015 inspection in which Ms. Lee was unable to attend. Records that were here today were unorganized and confusing. Ms. Lee was having a difficult time locating files and kept repeating "they are here somewhere". (0103) When shown pictures of dirty kennels and asked if she had a Policy and Procedure Manual and a Sanitation Protocol, Ms. Lee could not produce either. She did state that another group member takes care of these. (0101) Disposition forms are not being filled out on each animal. When asked why Ms. Lee stated she she didn't have enough time but she had information on each animal somewhere. (0101)(4) Medications are not being properly documented. There are no medication cards/sheets being utilized. (0101)(5) When asked about a dog out in the kennels that they call "Shrek", and why he had a body score of only 2, Ms. Lee said she had not been back in the kennels in over 2 weeks and that she did not no why it was not brought to her attention. (0210)(c) She could not supply an updated medical record at this time. (0101)(5) When asked what type of enrichment is provided to the long term canines housed here, Ms. Lee responded that a new volunteer had just started a program to get dogs out on walks. However, she could not provide any documentation for this. (0209)(6) When asked had she read the AWA (Animal Welfare Act) as it pertains to the full standards of minimum care of a private shelter, Ms. Lee stated "No" she had not. Dr. Norris explained in great detail to Ms. Lee the importance of her not only reading the guidelines but that it was Ms. Lee's obligation to the animals in her care to thoroughly know the requirements and implement them on a daily and on going basis. The ever increasing animal over population and herd health at the facility were also discussed in length. Dr. Norris gave Ms. Lee a copy of the AWA and stated several times throughout the inspection review to "Read and follow the guidelines". In addition, Ms. Lee was given the following list of paperwork to have complete and submitted to us within 30 days.

Narrative Explanation, continued

List as follows:

1. Ms. Lee is to seek immediate medical attention for "Shrek" and forward to us the medical records for this.
2. A complete, veterinarian approved, Cleaning and Sanitation Protocol for the facility.
3. Completed Disposition forms on all animals in and under the care of Colonial Capitol Humane Society that extends from May 2015 until present.
4. A list of all animals currently under the care of Colonial Capitol Humane Society that have a Disposition form and a list of all animals that have been under the care of and remain under the care of Colonial Capitol Humane Society before May 2015 that do not have a Disposition form. This list needs to have the dates that each animal came into and under Colonial Capitol Humane Societies care.
5. A complete, concise and signed Veterinarian Plan of Care for the Cat House. This should include proper isolation techniques and medical administration as well.
6. The use of medication/treatment/preventative medical forms with proper documentation of administration.
7. Documentation of any and all canine activities and kennel enrichment provided.

Dr. Norris has made it very clear to Ms. Lee that she had a window of 30 days to complete the following and submit it to us. Ms. Lee acknowledges her understanding of all the above

Narrative Explanation

This is a follow up inspection to the disapproved follow up inspection on 12/29/2015, disapproved records inspection on 1/8/2016 and the warning letter that was issued on 2/25/2016.

On 4/11/2016, Supervisor Joe Blomquist, and I, arrived at CCHS(Colonial Capital Humane Society) shelter at approximately 10:37am. At that time there were 3 volunteers on the premises. Mary Rose and a male volunteer were in the cat building and Susie Watson was in the dog kennel area. About 45 minutes into the inspection, owner Lisa Lee arrived.

The following is a compiled list of what remains unaddressed at this time.

HORSESHOE CANINE AREA.

1. 0201(a), 0204(b), 0207(c)> All kennels remain in need of some type of repair. Fencing wire is protruding from the dirt/crushed rock/sea shells in pen #3 of what CCHS volunteers are calling the "Rock Kennels."

Several kennels continue to have rusted fencing and metal poles in which the rust has ate through leaving jagged edges. Damaged wire kennel fencing is also apparent.

2. 0201(i), 0203(e)>There is not a suitable method of drainage in place for any of the existing kennels.

3. 0203(a), 0204(a)> The 4 Rock Pens are in need of at least 6inches of pea gravel. None of the concrete flooring in what is called the Horseshoe Kennels, is sealed.

4. 0204(a), 0207(a)> Several kennels are still without cross contamination barriers.

5. 0207(a)> Canines are not being removed prior to the cleaning process.

6. 0201(a), 0207(a)(c)> There are several kennels with an accumulation of piles of aged feces.

7. 0207(a)(c)> Behind, between and in front of each of the kennels there are puddles of stagnant water, mud and accumulated wet hair and debris.

8. 0201(e), 0205(b), 0206, 0207(a)(b1)(b2)(b3)(b4)(b6)(c), 0208>I have observed that canines are not let out of their kennels during the cleaning process and enclosures not being properly cleaned and sanitized. The daily removal of feces is not consistent. Hot water is not being utilized in cleaning the water buckets/food bowls.

Narrative Explanation

9. 0208> When I asked volunteer, Susie Watson, what were the CCHS cleaning protocols for the dogs. She states that she is unable to follow, and has never followed, a CCHS cleaning protocol for the dogs. This she stated is due to the number of canines on the premises, the severity of damaged kennels and that up until recently, there were no cleaning protocols. There are 2 rotating volunteers, (Tammy Golden, Susie Watson). As I observed today, this makes one volunteer here cleaning and caring for 48 dogs.

10. 0209(5)> The trailer that is enclosed in the back yard area use to be home to several rabbits. Lisa Lee states that this now will facilitate as the designated isolation and quarantine quarters for canines. There is heat and air conditioning in the trailer and black crates will be utilized as primary enclosures. She states that, as of now, new arrivals go into foster care or are impounded into Susie's yard (on the property), vetted and then they go into the general dog kennel area. There is no designated time for how long they are in quarantine. No signage is present.

11. 0101(5), 0210(c)(d)> A fostered canine named Lilly is the only dog in here at the present. Her foster family went out of town and needed for CCHS to board her at the shelter until later today when they will retrieve her. Lilly appears happy and settled. Her medical and disposition records are showing that she came into the care of CCHS on 2/5/2016. She was vetted on 2/29/2016. Record states that Lilly is up to date on all vaccines, positive for hook worms and heart worms. On 3/16/2016 she went into foster care. She is also listed as available for adoption. I can find no records that indicate Lilly is spayed, or that she has been treated for hook worms and heart worms or that she has been retested and is negative for both.

12. 0209(6a)(6b)(6c)> There is no documented evidence that canines in long term care at CCHS, are receiving daily access to both human and same species social interaction. Daily access to space other than the primary enclosure or a species and size appropriate toy. The weekly Human Walking program that was initiated back several months ago does remain active. On Wednesday, Thursday and Friday, volunteers come and walk some of

the dogs to the nearby park. There is no documentation that this is being done. Appropriate toys are noted in canine "Shrek's" kennel. A few other kennels had a toy. However, none of the canines are receiving the complete daily requirements for their long term stays at CCHS.

13. 0210(a)> CCHS has provided us with a hand written cleaning protocol for the dogs that is not signed or recommended by a veterinarian. They have, as well, provided us with a second, typed cleaning protocol that has been initialed, presumably by a vet. The third cleaning protocol is documented by Lisa Lee on the CCHS License Renewal Application for the 2015/2016 physical year. All three protocols are different and according to Volunteer, Susie Watson, none of the three protocols in question are being utilized in the dog kennel areas (see page 5, #9. 0208 of this report) as she was unaware of their existence. She states that her cleaning consists of the following:

1. Places food bowl in dog house so dog will go in and eat while she cleans.

2. Scoops solid waste.

3. Uses a mixture of dish detergent and bleach to the kennel floor.

4. Rinses with a water hose.

5. Refills water bucket(s). If the bucket is dirty, she replaces it.

Buckets and bowls are washed in the above mixture as well. No hot water is used in either process.

There are 39 Primary Enclosures and 41 canines in this area.

SUSIE'S YARD.

1. 0201(a)(k), 0203(a)(b)(e), 0204(a)(b)(c), 0207(a) (b2)(b3)(b4)(b6) (c)> In this separate enclosed space, Volunteer, Susie Watson, resides in a camper. There are 7 primary enclosures in this area. No canine identification is present on the kennels and they are not numbered. I have numbered them 1 thru 7 for the purposes of this report. Six of these are occupied by 8 canines. Kennels #3 and #6 house the 4 canines that are under the care of CCHS. Canines in kennels #1 and #5 belong to Volunteer Tammy Golden. The remaining 2 dogs, in kennels #4 and #7 belong to Volunteer Susie Watson. There are no available records for the 4 dogs not under CCHS care. All primary enclosures are out of compliance with the AWA. Pens are constructed of wood, particle board and damaged fencing. There is no form of drainage. The flooring is wood and particle board with the exception of a insufficient amount of a crushed rock/sea shell type mixture that exposes the dirt ground in kennel #6. Kennel #2, I am told, is in the process of being removed due to it's damage beyond repair status. Kennel #5's particle board floor has been totally destroyed by it's canine occupant. The entire space has sparse grass ground covering and is littered with yard equipment, tools, wood and various debris. Although 4 of these dogs are not listed as CCHS dogs, the AWA states, "All animals in a facility are subject to the requirements of the AWA(Animal Welfare Act), regardless of ownership".

There are 7 enclosures and 8 canines in this section.

Page 8.

PLAY YARDS.

1. 0201(a)(i), 0203(a), 0204(a)(b), 0207(a)(b1)(b6)(c) > The large fenced space, in the center of the Horseshoe Kennel area, is comprised of a dirt floor with a few patches of grass and numerous holes. There is no drainage and due to the type of ground cover in here, cleaning and sanitizing cannot be done. This is equally true as for the smaller fenced in yard that is erected next to the trailer in here.

OUTDOOR SHEDS.

1. 0201(d), 0207(c)(d) > There are 5 storage sheds and a three wall brick structure (for bagged dirty linen pick up) on the premises. The brick structure and 2 sheds that are located at the front part of the property, have been cleaned out and reorganized. The several bags of dirty linens are no longer in the brick structure. It is now being used for crate and dog house storage. There continues to be a rodent problem in the shed that houses the donated food. They will need to get the bagged food up off the floor and I suggest them putting it in sealed plastic containers. There is evidence that they are attempting to control the rodent activity in here. The other 3 sheds are located next to the trailer in the backyard area. These remain cluttered. There is a wire dog crate and a space heater inside of another crate in one of these sheds. This shed has no source of ventilation unless the doors are open. I have expressed some of the dangers associated with this type of housing and that it is not in compliance with the AWA. I advised Ms. Watson not to have any canines in any of the sheds. She states that from this point forward, she will not.

Page 9.

CAT HOUSE.

1. 0201(a), 0204(a)(b)(c)(f), 0207(c)> The need for repairs in here remains. Casings around windows and door frames are damaged. The 3 cat doors that connect the inside of the building to the back porch and that allow the felines to pass through, remain broken and dirty. The back porch is divided into 3 sections. These sections are comprised by metal wrapped wood 2x4's, screening coupled by a light weight wire fencing and 2 screen doors that connect the sections. Much of the wire is damaged and protruding out. Mary Rose has stated that they will be removing this.
2. 0202(b)> They have installed a new heating and air conditioning unit and 2 new wall vent covers in the "Sick Room". Although it feels as though there is air movement, the temperature is an ambient 69 degrees and both inside and outside areas appear clean, there remains a strong urine odor.
3. 0204(a)(b)(f)> Felines have access to wood in all areas of the facility. This is mainly due to repairs not being accomplished. There are a total of 108 cats on the premises. There are a total of 24 enclosures of which 17 are a bank of cages that are divided up and all in the "Sick Room". There is an inside and outside section here as well. The 5 remaining enclosures are 2 inside areas that connect to 2 areas on the back porch via regular doors and cat doors. Cats in these areas commingle. The last enclosure is a "kitty condo" set up on the inside portion of the first room. To the best of my knowledge, feline head count and the word of Volunteer Mary Rose, there are 18 cats housed in the "Sick Room" area, 3 cats in the "kitty condo" and 87 cats that free roam between the remaining 4 areas.

Page 10.

4. 0204(g), 0207(a)(b6)(c) > There are a total of 41 litter boxes in the facility. They use a clumping litter so boxes are scooped once a day and fresh litter is added if it is getting low. Several litter boxes that had recently been scooped have accumulations of dried feces on the inside walls of the container. We were provided 3 different cat house cleaning protocols from CCHS. One is initialed, presumably, by a veterinarian. One is numbered with 27 steps and lastly is the one that is on there License Renewal Application for the 2015/2016 physical year. When asked, Volunteer Mary Rose stated her cleaning protocol, it to is different.

Hers is as follows:

1. Cages are cleaned with a product called "WatchDog" and paper towels.
2. Floors are mopped in "Dawn" dish washing liquid and followed with "WatchDog".
3. Litter boxes are scooped daily and cleaned/disinfected as needed.
4. Water and Food bowls are washed in "Dawn" and hot water.

5. 0208 > For the 108 cats that are being housed at this time, there are 2, sometimes 3, volunteers to clean each day. Making that ratio out to be 1: 54 or 1:36 (humans to animals). There is a list of volunteers and their availability. Ms. Rose makes a weekly schedule from this list. She herself attends everyday.

6. 0209(5) The "Sick Room" is now the "Isolation" area for the cats in need of it. There are 19 felines sequestered in here at this time. Volunteers have installed clear plastic type panels over the 2 doors and the screened wall in the porch area that separates it from the healthy side. There is no signage posted to alert that this designated space is isolation. New arrivals, I am told, go into foster care.

Narrative Explanation, continued

Page 11.

7. 0210(a)(b)(c)> We received from CCHS a one page document labeled "Plan of Care for the Cat House". This is initialed, presumably, by a veterinarian. This "Plan of Care" addresses incoming/new felines and states that "all cats should be observed daily and that bowel movements and urination be noted. Any cat whose habits change or shows any sign of sickness should be isolated and seen by a veterinarian". There is another "Plan of Care" posted in the bathroom. It is not the same as the above. There is no consistent documentation noting daily progress or the lack of. Ms. Rose has informed me that this is not being done daily because she is there every day and always knows what is happening with the cats. She said that they did have a total of 28 cats in here not to long ago that had been diagnosed with Calici Virus. These cats had never gotten completely well despite several rounds of medications and care. Recently, the veterinarian recommended euthanasia for these cats. Since this recommendation, ten of these felines have been humanely euthanized. The remaining 18 continue to reside in the now called "Isolation Room" with positive Calici symptoms.

8. G.S.19A-32.1.(d)(c)> I did not find any copies of photo identifications attached to animal disposition forms for adopted, surrendered, or reclaimed animals. Nor are there any conspicuously posted photos of animals that have been fostered out. The only clear evidence I can find at this time regarding the posting of animals via CCHS is a Lost/Found posting for a lost cat on the front outside door of the cat trailer.

RECORDS. (canine and feline)

1. 0101(1)(2)(3)(4)(5)> There are separate books of records for canines and felines.

Narrative Explanation, continued

Page 12.

The canine book holds a copy of the medical record and description for every canine on the premises with the exception of the 4 volunteer owned dogs. Disposition forms are present for canines impounded from May, 2015 to present. The records for dogs that are in foster care are also contained in here. There are a few of the fostered dogs that do not have location information on them.

Each canine enclosure has the dogs name above it. However, the kennels are not completely numbered.

CCHS provided us with copies of index cards that are set up as daily medication cards with all canines receiving medicine that day placed on that one card. The date(minus the year) and the initial of the person giving the medication are on the top of the card. The succession of dogs names follow and next to each name is the drug name(not always complete) and how much/many are to be given. How often and how long the drug is to be given, along with the prescribed dosages, are not noted on these cards. Thus, dogs such as Shrek, Hunter, Steel and Popeye were not receiving their medications correctly. The medical records list exactly what the veterinarian prescribed, how often it is to be given and for what duration.

Several of the medical charts show dogs testing positive for heartworms. Most show that the treatment that was provided, is being used as a preventative every 6 months as well.

There are 2 feline record books. Ms. Rose has informed me that the books are incomplete and unorganized at this time. She states that she and Lisa Lee will need to get together with their veterinarian to straighten them out. At this point they are not sure about the identification of some of the cats. Lisa Lee concurs with this and states it will be at least 2 weeks before they complete it all.

Narrative Explanation, continued

Page 13.

There is no identification on any of the cats. There are no identification cards on any of the cages in the "Isolation/Sick" room.

Ms. Rose continues to use a notebook for feline medications. This book goes by page per week. There is a list of cats names that are to receive medications. The column for medicines has either the name of the medication or a brief description of it. Such as "yellow pill" "pink drops in nose" "shot" or "tan eye drops". No dosages, times or duration of medication.

Ms. Rose is the only one dispensing the medication and she states she knows what the medications are, what they are being used for, when to give them and to which cat. However, I have no records verifying any of these medications due to the record books being incomplete and confusing at this time.

Both the feline record books are the premises. Yet, due to not having them organized with feline identification, current dispositions of the cats and up to date medical records, I am unable to complete my report concerning these matters.

Currently there appears to be a total of 58 dogs in the care of CCHS.

14 are in foster care and 44 are at the shelter.

There are a total of 108 cats on the premises. I am told that the cats they have in foster care and at the local PetSense adoption center are all under CCHS care as well. However, I cannot find any photos or information of these animals in foster care.

Page 14.

In performing this inspection today, Supervisor Blomquist and I continue to find numerous deficiencies.

As in past inspections, a few corrections have been addressed. However, paperwork/records, primary enclosures, lack of drainage for all kennels, lack of sanitation procedures/performance, and the high number of animals on the premises that are not receiving adequate husbandry as required by the AWA(Animal Welfare Act), continue to be ongoing issues here.

Due to all the above, the facility cannot be approved.

Narrative Explanation

Today, Supervisor Joe Blomquist and I performed a follow up inspection. The following depicts those findings.

CAT HOUSE.

Mary Rose, Naomi Robinson and 2 other volunteers are present.

1. 0101(1)(2)(4)(5), 0103> The feline count in here is up to 151. This is a increase of 43 cats from the prior inspection. Ms. Rose has informed me that 16 felines that were in foster care had been returned. One of those 16 had to be euthanized due to illness. No explanation was provided for the arrival of the other 28 cats. I could not find records for the 43 new cats. Ms. Rose states that Lisa Lee has the records for the 16 cats that were returned. Ms. Rose could not explain where the records were for the other 28 cats. Records were available for the other 108 felines. The medication sheets that are being used are incomplete and out of compliance with 0101(5) of the AWA. I have offered to provide them with a medication/treatment sheet that will be in compliance if used. Ms. Rose has agreed to this. Kennel card usage remains inconsistent.

2. 0204(f)> This increase of new feline arrivals puts housing arrangements to 25 cats per room. Exceeding the 12 per enclosure rule and the number of felines they can responsibly hold and care for according to their registration renewal application.

3. 0207(b2)(b6), 0209(5)> The inside/outside room that has been designated as their isolation area, as I am told by Ms. Rose, houses 18 calicivirus positive cats, sick cats and new arrivals for observation. Thus, healthy felines are placed with actively ill felines. No adequate isolation protocol has been implemented so cross contamination and the contagious disease transition risk is extremely high. During this inspection I have made several suggestions to alleviate some of these problems and to bring them into compliance with the AWA. As Supervisor Blomquist and I were in the isolation room there was a black cat with free range of the room (there were numerous cats free roaming in the isolation room). He was perched atop of one of the kennels and began to sneeze. A thick greenish drainage came from his nose.

Narrative Explanation

Ms. Rose stated that he was one of the chronically ill cats that resided in here. The cat appeared friendly and without distress.

4. 0201(a), 0202(d), 0204(a)(b), 0207(b2)(c)> The building continues to have issues that were noted in the previous inspection yet have not been addressed. Ms. Rose stated that Lisa Lee has been focusing on the canine issues and has not been able to address the cat house. There is an abundance of exposed and damaged wood throughout the house. Protruding jagged metal on lower portions of doorways is present. Cat doors need repair or replacing. The felines continue to have access to the sink area where clean and dirty dishes are. Walls, windows and doors remain in need of a deep clean.

5. 0207(c)> The front right outside portion of the cat house (trailer) area is cluttered with with dirty litter boxes, carriers and crates.

DOG KENNELS.

Employees Chris Fuller and Yuko Ashworth are present and in the process of cleaning.

1. 0101(1)(2)(4)(5), 0103> Ms. Ashworth has informed me that they have had several recent adoptions. The canine count shows that they have decreased in the number of dogs from previous inspection. The count went from 48 to 37. However, they had taken in 4 hound mix pups (surrenders), 2 catahoula mixes that were returned fosters and 2 pit mix puppies that were left inside the kennel area over the past weekend. Two of the hound mix pups have been adopted. There is no paperwork on the pit puppies or the catahoula mixes and no identification was present on their kennels. Ms. Ashworth has stated that Lisa Lee has the paperwork on the catahoula mixes.

2. 0201(a)(i), 0202(d), 0203(e), 0204(a)(b), 0207(b6)>Improvements in the drainage system are noted but it is not completed. Cross contamination barriers, sealed concrete, damaged fencing and the play yard ground covering have not been corrected. These areas are not in compliance with the AWA.

Narrative Explanation, continued

Pg. 6

A company came out and installed a french drain and gravel replenishment to the 4 rock pens.

Gravel has been added to the front of the other kennels as well. It has not been placed behind any of the pens.

The concrete blocks that they will be using for the cross contamination barriers remain in a covered stack as before.

The outdoor wash station remains under construction and cannot be utilized at this time.

Concrete issues are unchanged as the flooring in each enclosure remains unsealed, several holes and cracks continue to be present making cleaning difficult.

The wire fencing still has areas that need repair. Some of the fencing posts have rusted through, creating jagged, sharp edges that pose as a hazard for potential injury.

The play yard ground covering is one of patchy grass, weeds and dirt. Ground covering shall be constructed of sealed concrete or other surfaces impervious to moisture.

3. 0207(c)> There are weeds/vines growing up and into the back of several of the kennels. Kennel #29, in which the 2 pit puppies are in has weeds throughout and a dirt/crushed shell type ground covering. This is not in compliance. There are wire crates and plastic dog houses piled up around the open shed. Yard tools and other debris are scattered on the ground in this area too. Canines that are let out to exercise in this space have full access to the above. To be in compliance with the AWA(Animal Welfare Act), this area, and any other area that the dogs have access to, shall remain free of accumulations of trash, junk, waste products and discarded matter.

Narrative Explanation, continued

Pg. 7

Deficiencies noted in the previous inspection still remain.

We note some improvements have been made. However, numerous corrections that have been previously discussed and are necessary for this facility to be in compliance, have not yet been implemented.

Due to the considerable amount of remaining violations, this inspection report has been marked as disapproved.
